RULES

Bowl 3 games on the same pair of lanes. Strike, 9 or 8 pins down on the first ball all count as a strike. Team handicap is 90% of the difference between your team's average and 800. Maximum handicap is 400 pins. Team averages over 800 does not get a minus. Bowlers will use their highest sanctioned average from the 06-07 season. If no average is available then bowler will use their highest average from this season (07-08) with a minimum of 21 games as of April 1st, 2008. If you do not have a sanctioned average, Men will use 200 and women will use 175. No ten pin rule, Bowlers are reminded of their responsibility to provide a correct average. Failure to do so can result in disqualification. Averages will be adjusted up, but not down. You may bowl as often as you like but you can only cash once with the same team. You must change at least 2 bowlers to cash more than once. No more than one employee of Lakes Bowl can bowl on the same team. Average adjustment will apply according to USBC Rules 319D and 319E.

All averages will be verified before any prize money is mailed out
All bowlers outside of Lake County must provide average verification.
